

FACTORY TOUR

Honingcraft

Honingcraft, of Ekurhuleni, is a manufacturer and supplier of hydraulic cylinder tubes, induction-hardened and normal chrome shafts and cast iron bars to the hydraulics industry.

The core products of this 54-employee, 18-year-old company include hydraulic cylinder tubing up to 12 m long, CK45 and induction-hardened chromed bar and cast iron bar. Its services include honing (up to 1m in diameter and 20 m in length) and chroming. Honingcraft's 3 952-m² factory, on Dekema road, in Wadeville, Germiston, boasts ISO 9001: 2008 certification for quality management and is equipped with honing machines, chrome tanks, grinding machines, centre lathes and boring mills. The main input materials used are hydraulic DIN2391 cylinder tubing, CK45 chromed bar and UB250 cast iron.
